JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

CUBA.

Report from Cardenas—Health conditions.

Acting Consular Agent Fitz Gibbon reports, June 10:

No infectious diseases have been reported by the health department of this city for week ended June 10, 1907.

Report from Cienfuegos—Inspection and fumigation of vessels—Precautionary measures to be taken against arrivals from Trinidad—Sanitary conditions.

Acting Assistant Surgeon Marsillan reports:

Week ended June 15, 1907.

Vessels inspected.....	3
Vessels inspected and fumigated.....	2
Bills of health issued.....	5
Crews inspected.....	86
Passengers inspected.....	0
Immune certificates issued.....	3

On June 12 a telegram reached this office from Passed Assistant Surgeon Stansfield at Habana, stating as follows: "Officially reported two deaths from plague at Port of Spain, Trinidad, West Indies." I immediately called upon the authorities of the port, who informed me they had orders from the Superior Board of Health of Cuba to take all precautionary measures on all arrivals from said port on account of presence of yellow fever and bubonic plague. They have offered to inform me of the arrival of any vessel from the island.

The American schooner *John Francis*, from Mobile, bound for the same place, was fumigated and inspected June 11; all temperatures of crew normal.

The British schooner *J. L. Nelson*, from Nova Scotia, cleared for Alexandria, Va., and was also fumigated by this office. All temperatures of crew were found normal on inspection.

The sanitary condition of the city is the same as previously stated. No quarantinable disease entered the port during this week.

Report from Habana—Inspection and fumigation of vessels—Camp at Tricornia opened for reception of nonimmune passengers—Sanitary conditions fair.

Passed Assistant Surgeon Stansfield reports, June 18:

Week ended June 15, 1907.
